BioHitech America Selected To Participate In Exclusive Credit Suisse Private Innovation Circle Event

**The leading onsite organic waste diversion technology company in the United States
continues to experience significant growth**

CHESTNUT RIDGE, NY – SEPTEMBER 23, 2014 – [BioHitech America](#), the most innovative and sustainable solution company for food waste disposal, has been selected to participate as a presenting company at Credit Suisse’s First Private Innovation Circle event. The exclusive event which will take place on October 24th in London will introduce participating companies to Credit Suisse’s exclusive salon members representing global opinion leaders, top management, ultra-high net worth entrepreneurs, and investors from a broad range of industries.

Credit Suisse received numerous applications for their Private Innovation Circle event, which were narrowed down to 8 finalists. Presenting companies were chosen on the basis of the innovative power of their business ideas, revenue generating potential and the track record of their management. This year’s inaugural Private Innovation Circle will feature companies with innovations in the fields of Environmental Sustainability / Waste Management, Healthcare / Medical and Technology. The 8 finalists are then invited to attend the 14th Annual Credit Suisse Salon.

“It is an esteemed honor to be part of this year’s private innovation circle,” said Frank E. Celli, Chief Executive Officer of BioHitech America. “We are proud to be the first to marry “Big Data” with “Clean Technology” offering an environmentally efficient system that provides transparency and usable data to its end users. I am thrilled to be able to share our exciting company story and products with the elite members of the Credit Suisse Salon.”

BioHitech America is the leading provider of innovative technology solutions designed to solve the increasingly relevant issue of food waste disposal and its subsequent effect on our planet.

The company's Eco-Safe Digester and BioHitech Cloud have attracted the attention of leading corporations and governments around the world as they strive to reduce carbon emissions and measure environmental impact while realizing a compelling return on investment.

"The purpose of our Credit Suisse Salon and the Private Innovation Circle is to bring together global leaders to discuss issues at forefront of the political, social, and economic agenda," said John Zafiriou, Global Head of Solution Partners of Credit Suisse.

About BioHitech America

BioHitech America's unique solution to food waste combines green technology with the power of big data to offer transparency, savings and a sustainable future. The company's Eco-Safe Digester, an on-site aerobic digester, eliminates up to 2,400 pounds of food waste in a 24-hour period by converting it into nutrient-neutral water and transporting the water safely through standard sewer lines. The BioHitech Cloud, a technology platform hosted by Amazon, measures key metrics to optimize the food waste disposal process. These metrics are providing the industry with an unprecedented level of transparency that not only helps to reduce the amount of waste generated, but improve company-wide efficiency and profitability.

The BioHitech America solution is the leading sustainable method that allows businesses to move towards the prevention of waste altogether. For more information, please visit www.biohitech.com.
