**FOR IMMEDIATE RELEASE**

## **BioHitech America CEO To Participate in Credit Suisse Entrepreneurs Forum**

### **Frank E. Celli Shares Business Growth Success Story During Upcoming Exclusive Panel**

**CHESTNUT RIDGE, NY – APRIL 14, 2015** – [BioHitech America](#), a green technology company that provides an innovative data-driven solution for food waste removal, will be participating in another exclusive Credit Suisse Event. On April 29, 2015, BioHitech America’s Chief Executive Officer Frank E. Celli will speak at the Credit Suisse Entrepreneur’s Forum.

Last October BioHitech America also presented at Credit Suisse’s First Private Innovation Circle event. The exclusive event introduced participating companies to Credit Suisse’s exclusive salon members representing global opinion leaders, top management, ultra-high net worth entrepreneurs, and investors from a broad range of industries.

“We are thrilled to be participating at another Credit Suisse event,” said Frank E. Celli, Chief Executive Officer of BioHitech America. “Our green tech solution and focus not only on waste diversion, but also actual prevention is crucial for our environment. We look forward to sharing our story with fellow like-minded entrepreneurs.”

BioHitech America is the leading provider of innovative technology solutions designed to solve the increasingly relevant issue of food waste disposal and its subsequent affect on our planet. The company’s Eco-Safe Digester and BioHitech Cloud have attracted the attention of leading corporations and governments around the world as they strive to reduce carbon emissions and measure environmental impact while realizing a compelling return on investment.

**About BioHitech America**

BioHitech America's unique solution to food waste combines green technology with the power of Big Data to offer transparency, savings and a sustainable future. The company's Eco-Safe Digester, an on-site aerobic digester, eliminates up to 2,400 pounds of food waste in a 24-hour period by converting it into nutrient-neutral water and transporting the water safely through standard sewer lines. The BioHitech Cloud, a technology platform hosted by Amazon, measures key metrics to optimize the food waste disposal process. These metrics are providing the industry with an unprecedented level of transparency that not only helps to reduce the amount of waste generated, but also improve company-wide efficiency and profitability.

The BioHitech America solution is the leading sustainable method that allows businesses to move towards the prevention of waste altogether. For more information, please visit [www.biohitech.com](http://www.biohitech.com).
